Chad Deters
KRMCA President

*Advance Ready Mix Concrete
Louisville, KY*

KRMCA Membership,

Serving as the president of the Kentucky Ready Mixed Concrete Association is a great privilege and I want to thank each member for allowing me to represent you this year. This association has been a part of my life for as long as I can remember. My earliest memories date back to the days when the association was working out of a match box sized office in downtown Frankfort. The Association was paying \$100 in rent for that space, uncertain if it would even exist in the years to come. I've seen this association grow and prosper since that point, making Kentucky one of the top associations in the US year after year, eventually putting itself in position to be able to pay for its current building in cash. Jim and Diana Deters, along with John McChord, made this association great and created a legacy in which we all should be proud. We are fortunate enough to have our current staff working just as diligently today to advance our industry. I want to thank Finley, Greg, Brett, John and Susan for all the hard work they put in to make sure our association stays as one of the best in the country.

There is no denying that we have a great organization. Fortunately for us, the product that we all make a living around is just as impressive as the organization that represents it. What other product in the world is so versatile? Sometimes it is almost overwhelming trying to promote all of its applications and advantages, to all the people who could benefit from its usage. From Decorative to RCC, whitetopping to ICF's, flowable fill to tilt-up walls; through these many usages our product is the most consumed substance on earth behind water. Every member doesn't have the same priorities when it comes to what applications are most important, but I challenge everybody to find a way to promote our industry and get involved in the way that best fits you.

I know that manpower is becoming increasingly in short supply and sometimes it's hard to find the time, but we must not lose focus on what makes our industry and association so great. If we all make a little bit of time to promote today, we will reap the benefits of our efforts for years to come. There are many second and third generation members that are now part of our association, just think where you would be today if our fathers and grandfathers hadn't worked so hard to advance our industry?

Chad D. Deters

The KRMCA is pleased to present its new Membership Directory and Buyer's Guide. Other than KRMCA members, the directory is made available to architects, engineers, contractors, and others whenever they need to know where ready-mixed concrete is available in Kentucky. Every effort has been made to make the directory as accurate as possible, but the KRMCA assumes no liability for damages arising from any errors or omissions in the compilation and/or printing of the directory.

A NOTE OF THANKS: *Publication of this directory would be impossible without the support of our many advertisers. We sincerely appreciate the patronage of these advertisers and ask that you mention to them that you saw their ad in the KRMCA Membership Directory and Buyer's Guide.*

PURPOSE OF KRMCA COMMITTEES

Convention Committee

The purpose of the Convention Committee is to: Plan and coordinate the program of events of the annual convention; Prepare a program of interest to the membership at the annual convention; and obtain outstanding speakers to provide the membership with information and new ideas in technical advances in various phases of the industry. Also plan, sell, booths for KRMCA Trade Show (every third year).

Environmental Control and Safety Committee

The purpose of the Environmental Control and Safety Committee is to: Work with governmental agencies so that the Association will be consulted before any governmental regulations concerning air, water or noise pollution are modified or changed, which will affect the ready-mixed concrete industry in the areas of environmental quality and control. Act as a liaison between governmental agencies and the ready-mixed concrete industry in the areas of environmental quality and control.

Executive Committee

The Officers and such other Directors appointed by the President shall serve as an Executive Committee and be authorized to conduct the affairs of the Association between sessions of the Board of Directors. The President and Vice President are members ex officio of all committees.

Finance Committee

The purpose of the Finance Committee is to: Prepare and recommend a budget; and to assist in providing equitable methods of collecting dues.

Insurance Committee

To deal with all types of insurance matters.

Legislative Committee

To follow all legislation that has an effect on the concrete industry, and to propose legislation as needed to benefit the ready mix industry.

Membership Committee

The Purpose of the Membership Committee is to develop the membership of the Association, both as to producer members and associate members and to secure new members for the Association.

Promotion Committee

The purpose of the Promotion Committee is to plan and coordinate the promotion of ready-mixed concrete in Kentucky. Work with regional promotion committees and support their activities.

Quality & Specification Committee

The purpose of the Quality & Specifications Committee is to: Study methods, gather data, and promote techniques for a better quality of ready-mixed concrete; plan and coordinate the association's pre-certification school and work with the Department of Transportation and other specifying agencies developing concrete specifications.

Commitment is in everything we do

At Lafarge, our commitment goes far beyond the raw materials we produce. We bring together the best solutions and materials to build more durable, compact and connected cities. And when you build better cities you get buildings, roads and infrastructure that truly reflect the changing needs of today's communities.

It's this kind of ongoing dedication that's an integral part of the Lafarge culture. And it shows. Whether it's our focus on safety, the well-being of our employees, or the satisfaction of our customers – it's all about ensuring a better quality of life for everyone involved.

Kentucky Concrete Industry

Facts and Figures to Build the Foundation for Kentucky's Economic Success

- Kentucky has 1 cement plant and 212 concrete production facilities (includes ready mix, block, precast and concrete pipe plants), an average of 1.8 facilities for every county in the Commonwealth.
- The Concrete Industry directly and indirectly generated close to 22,000 jobs.
- The Concrete Industry made a direct and indirect contribution of \$457 million to state revenue.
- The Kentucky Concrete Industry had a \$240 million payroll, and generated \$687 million in shipments.
- Kentucky consumed 4.4 million cubic yards of concrete in 2013.
- Concrete's inherent durability is important to Kentucky's sustainable development. Concrete is produced locally, completely recyclable and offers many energy-efficient products (fuel-efficient pavements and energy-saving buildings).
