CLAY SHOOT REGISTRATION OPENS

May 17th marks the first of what will hopefully become a new KCA tradition - the first annual KCIPAC Sporting Clays Shoot. This event promises to be an exciting and fun day of networking and friendly competition as people from across the state gather for the day. Elk Creek Hunt Club in Owenton, Kentucky will host the event later this spring.

Whether you’re a seasoned veteran or a first-time shooter, this event is sure to be a lot of fun. Each shooter will spend the morning driving around the stations shooting at 100 targets for the highest team score overall. Afterwards, the event will wrap up with a delicious catered lunch, and a short awards ceremony will take place before the day ends. The Shoot is the perfect opportunity to invite your customers, or gather up a group of coworkers. This event is a fundraiser for the Kentucky Concrete Industries Political Action Committee, and as such must be paid for using personal funds.

The last day to take advantage of the Early Bird Discount is this Friday, so be sure to register online today! Registrations for individuals or teams of 4 are welcome and open now.

To register, go to www.kyconcrete.org/PACshoot

Remember - the KCI PAC registrations must be paid for using PERSONAL FUNDS. No company credit cards permitted.

IN-DISTRICT ACI NEAR YOU

Several KYTC Districts have scheduled their in-district certification courses with the KCA in preparation for the new HT series implemented at the beginning of 2018. Near these dates, the KCA will be setting up meetings with key district personnel to discuss the needs of the district and how the concrete industry can help meet those needs. Be on the lookout for information regarding these meetings, as we would like to have Producer Members join us for those meetings. As of now, the confirmed dates for certification courses are as follows:

- D12 - April 24
- D8 - May 7
- D7 - May 22
- D2 - June 13

The meetings with District staff members have yet to be confirmed, but information will be sent out soon.

LEGISLATION UPDATES

HB 609 is a comprehensive road funding plan that could kickstart KY infrastructure through the implementation of an increased fuel tax.

MARKETING PUSHES

Local CEC’s opt to push lunch & learns and build up their contractor member bases in attempt to develop key relationships.

IN THE PIPELINE

I64 - 264 Interchange update to be included in an upcoming letting for KYTC D-5 and should include a healthy amount of concrete.

NATIONAL HEADLINES

NRMCA’s Amanda Hult to present at KSPE Event later this month on ACI 330 and new online pavement design software.

AT A GLANCE

APRIL
INDUSTRIAL PAVE Hitting KY
The Northern KY CEC is pleased to announce its upcoming Lunch and Learn seminar featuring NRMCA’s Amanda Hult. The session will be held on May 16th at Summit Hills Country Club in Crestview Hills, KY. This FREE continuing education session will cover ACI 330.2R-17 - the “Guide for the Design and Construction of Concrete Site Paving for Industrial and Trucking Facilities”.

This ACI guide covers significant design considerations and methodologies for dealing with the numerous atypical traffic loadings that many industrial & trucking facilities deal with, including steel wheeled fork-lifts, track wheeled vehicles, and point loads from trailers and other large items.

Additionally, Amanda will spend a bit of time discussing NRMCA’s new PavementDesigner. This new browser based software offers a fantastic user interface in a design package that is free and requires no downloads or permissions to use.

If you are interested in attending this educational session, please contact Josh Huddy (josh@kyconcrete.org) for more information.

STRENGTH TRAINING CLASS
The Kentucky ACI Chapter will be holding a Concrete Strength Training Class on May 17th at the Lehigh Cement Speed Plant in Sellersburg, IN.

Registration forms and additional information can be found attached at the end of this newsletter. The class is $650 per person.

COMMITTEE UPDATES

PROMOTIONS
Local CECs continue to drive their individual goals forward in 2018. Next Promotion Committee meeting to be announced at a later date to precede the Summer BOD meeting.

ENVIRONMENTAL CONTROL & SAFETY
The EC&S Committee will begin to start polling members for dates that will work for an upcoming committee meeting in hopes of getting better attendance. Be on the lookout for an email from the KCA regarding potential dates for meetings.

QUALITY & SPECIFICATIONS
New KYTC Specifications are in review and expected to be published sometime this year. No information on a time line of this release as of yet. Q&S Committee meeting to be established soon.
Kentucky Chapter of ACI announces:
