LAST CHANCE TO REGISTER

The deadline to register for the KCIPAC Sporting Clays shoot on May 17th is tomorrow (May 2nd) by the close of business. A HUGE thank you goes out to our partnering sponsors of the event: Concrete Materials Company, Ernst Concrete, Harrod Concrete & Stone, Irving Materials, Inc., & Lehigh for their commitment to making this event a success for all those who will attend.

We still have several open slots available for teams and individual registrations, so be sure to take a look at this event. As a reminder, the event is open to everyone - KCA members and non-members alike, so bring your friends, family, coworkers, or clients to what is sure to be a fantastic day of fun and friendly competition.

Additionally, invoicing options are now available online for those that wish to pay with a personal check instead of a credit card.

To register, go to www.kyconcrete.org/PACshoot

Remember - the KCI PAC registrations must be paid for using PERSONAL FUNDS. No company credit cards permitted.

FIRST IN-DISTRICT ACI SUCCESS

KYTC District 12 was the first to set up an in-district ACI Certification class and the preparation that went into it made for an incredibly successful class. District 12 Materials personnel spent multiple sessions with those registered for the certification to ensure that they had training and were familiar with the test methods that would be covered during the exam. It was almost immediately evident that the people in the class had received quality training before the exam and we fully expect the scores to reflect that when we hear back from ACI.

The remaining Districts either have, or will be scheduling their certification classes for sometime later this year. Coinciding with these dates, the KCA will be setting up meetings with key district personnel to discuss the needs of the district and how the concrete industry can help meet those needs. The meeting with D12 went very well, and we had an informal discussion about how the industry can be a resource to the cabinet in Eastern Kentucky.

Be on the lookout for information regarding these meetings, as we would like to have Producer Members join us for those
meetings. As of now, the confirmed dates for certification courses are as follows:

- D7 - May 23
- D4 - May 30
- D11 - June 5 & 6th
- D2 - June 13 & 14th

KSPE DRAWS GREAT AUDIENCE
The KSPE Annual Convention on April 18th - 20th drew a sizable crowd of professional engineers from across the state. The majority of those in attendance were engineers with a focus in civil & geotechnical design - a target audience for the KCA.

Joining us as a presenter at the convention was NRMCA’s Amanda Hult to give an educational session on ACI 330.2R-17 - Industrial Pavement Design. Despite competing with 4 other educational offerings at the same time, Mrs. Hult was able to draw a sizable crowd of around 40 or 50 interested and engaged participants. Overall the event was a great success!

NKCEC READIES FOR CROWD
Mrs. Hult will be joining us in Kentucky for Round 2 of the Industrial Pave education sessions on May 23rd in Northern Kentucky. The Northern Kentucky Concrete Education Council is bringing Amanda and her ACI 330.2R-17 Program to Summit Hills for a 1 hour Lunch and Learn to discuss the ins & outs of designing pavements that will support industrial loads. Industrial pavements carry over-the-road trucks, but also industrial lift trucks, such as cranes, and loads imposed by dolly wheels and trailer pads, tracked vehicles, and other non-traditional vehicles such as fork lifts. To register for the event please send your RSVP to info@kyconcrete.org

COMMITTEE UPDATES

PROMOTIONS
Local CECs continue to drive their individual goals forward in 2018. The Promotion Committee will meet approximately 1 month prior to the Summer BOD Meeting (TBD Date in June)

ENVIRONMENTAL CONTROL & SAFETY
An email will be sent soon to determine a date for the rescheduled EC&S Committee meeting. If you would like to be added to this email mailing list, please contact Josh Huddy at josh@kyconcrete.org

QUALITY & SPECIFICATIONS
In-district meetings with KYTC Districts will be occurring near the date of their local ACI certification classes. Info will be sent out to applicable producers to join KCA representatives in an informal meeting with KYTC personnel.
