KCA Committees

Executive Committee
The officers and such other Directors appointed by the President shall serve as an Executive Committee and be authorized to conduct affairs of the Association between sessions of the Board of Directors. The President and Vice President are ex-officio members of all committees.

Members:
Eddie Webster, Eric Cole, Jay Moore, Eileen Logsdon, Ben Yost, David Reeves, Carl Applebaum

Promotion Committee
The Promotion Committee exists to plan and coordinate the promotion of ready mixed concrete in Kentucky. They work with regional educational committees to support their activities.

Members:
Eddie Webster - Chair, Jody Allen, Brett Baker, Rob Condo, Tim Condo, Chad Deters, Justin Edwards, Don Gore, Ed Heller, Larry Hennon, Jonathan Holloway, Carl Howard, Blair Jones, Jason Jones, Jeff Lentz, Eileen Logsdon, Greg Middleton, James Ray, Bud Ruffing, Cody Steele, Mike Suter, Mike Vogler, Ben Yost, Darrin Wright
KCA Committees (continued)

Environmental Control & Safety Committee
The Environmental Control & Safety Committee is tasked with working with governmental agencies so that the KCA will be consulted before any governmental regulations concerning air, water or noise pollution are modified or changed which will affect the Ready Mix Concrete Industry. This committee acts as a liaison between governmental agencies and the ready mix concrete industries in all areas of environmental quality and control.

Members:
Mike Tolin - Chair, Greg Armstrong, Carolyn Baker, Eric Cole, Max Good, Rick Hendrix, Roger Laslie, Tammy Partain, Kirk Reinke, Robbie Robertson, Scott Wells, Jason Jones, Dan Pitt

Quality & Specification Committee
The Quality and Specifications Committee exists to: study methods, gather data, and promote techniques for a better quality of ready mixed concrete; plan and coordinate the association’s certification school and work with the Department of Transportation and other specifying agencies developing concrete specifications

Tired of waiting for fly ash from a single source? Get the responsive, reliable supply of fly ash and other advanced materials from the Charah® Solutions MultiSource® materials network. Our MultiSource distribution system has over 30 nationwide locations and it is constantly expanding to provide you with continuous supply of our new high-quality MultiCem™ slag cement plus Class C and Class F fly ash and other sustainable materials for concrete products. MultiSource provides a nationwide network of barge, rail and truck services for on-time delivery and a more sustainable process for you and the environment. For more information, contact us at 877-314-7724 or visit charah.com/flyash.
To all members of the Kentucky Concrete Association:

I would like to thank each and every member of the KCA for allowing me the opportunity to serve as your president. A big THANKS to Finley, Josh, John and Susan for their help and support this year.

Does it sound strange saying KCA? Even after a couple of years I still find myself saying the Kentucky Ready Mixed Concrete Association. But we need to remember it's not just a ready mix association. It's more than just suppliers, vendors, haulers, engineers or contractors. It's the people that make the association, and it's the people that make the difference.

A few days ago I was talking with a friend who has been in the construction industry for more years than he wanted to admit. He wondered if he what he did for a living made a difference to anyone. I asked him if he ever thought about how much of an impact he had on the community. How many roads did he supply material to for people to drive on? How many houses were built for people to live in? How many schools, bridges, buildings, parking lots, etc. impact people every day? I ask each of you to think about that too. Look at the lives each and every one of us are involved in every day. We do make a difference.

To make an even bigger difference, get involved. Get involved in your local communities. Get involved in the KCA. Remember this is your association. The more you put in it, the more you will get out of it. So together let's build Kentucky a brighter future.

Thanks again for what you do. May God bless each of you and keep you safe.

Have a blessed day!

Eddie Webster
President of the KCA

Award Qualifications

KCA Safety Awards are presented to Ready Mixed Concrete Plants with zero lost time accidents for the 2016 operating year.

KCA Plants are divided into three categories based on the size of the operation. Category A includes all plants operating in Kentucky with an annual average number of trucks stationed at the plant equal to or less than nine. Category B includes those plants operating in Kentucky with more than nine trucks but less than twenty on an annual average. Category C represents all plants operating with twenty or more trucks stationed at the plant on an annual average. This year, no plants submitted within Category C.

Overall Category Winners are those plants which had the lowest Accident Frequency Rate (AFR) per 100,000 yards produced among those plants submitted to their specific size category.

BUILD IT STRONGER. FASTER. BEAUTIFULLY. SMARTER. GREENER. SAFER. FOREVER.

For over 100 years, the people of CEMEX have been hard at work turning your visions into realities. Building what can only be imagined, improving upon convention and believing that partnership and passion are the only ways to do business.

We invite you to learn more about CEMEX by visiting us at www.cemexusa.com, or by contacting your regional CEMEX office:

© 2016 Lafarge North America Inc., Chicago, IL
At Lafarge, our commitment goes far beyond the raw materials we produce. We bring together the best solutions and materials to build more durable, compact and connected cities. And when you build better cities you get buildings, roads and infrastructure that truly reflect the changing needs of today’s communities.

It’s this kind of ongoing dedication that’s an integral part of the Lafarge culture. And it shows. Whether it’s our focus on safety, the well-being of our employees, or the satisfaction of our customers – it’s all about ensuring a better quality of life for everyone involved.

To learn more about Lafarge solutions and products, including cement and aggregates, contact:
